Graphic Story of Florida Storm

CONFLICTING REPORTS OF ACTUAL DAMAGE

Some Sources of News Place Loss of Dead as High as 1,000

WEST PALM BEACH, Florida.—Cities, which were built over night in the greatest era of development an American community has ever known, have collapsed over night, in one of the greatest disasters ever to visit the North American continent.

A great hurricane, blowing 130 miles an hour out of the West Indies, has devastated the Florida East Coast from Palm Beach South to Homestead. Many cities have been destroyed, and many hundreds of lives lost.

The known dead totalled 261. Authoritative agencies estimated the number killed at 471 in the larger cities alone. The Red Cross have received reports the dead will reach 700, and some estimates run as high as 1,000. Fifty thousand persons are estimated homeless and suffering severe privations.

Huge Property Loss.—Property damage will surpass \$100,000,000. It has been estimated that Miami alone will show losses equalling that figure.

Hollywood, Fort Lauderdale, Hialeah, Pompano, Dania, Hallandale, Miramar, Coral Gables, Muckley and Key West, all have suffered in varying degree—the first six named and Miami to a point where probably they will have to be rebuilt.

It was six days ago that the hurricane was first born out in the West Indies. It roiled westward, and at 2 a.m. Saturday it broke upon Miami from the northwest.

Wind Roars and Whirls.—For four hours the wind roared and whirled at a velocity of 130 miles an hour.

The great tower of the Miami News, famed the world over for its architectural beauty, leaned to a 20-degree angle, twisted and wrecked.

WILLIAM ROBERTSON DIED AT CALGARY

William Robertson, of Nanton, died at Calgary on Monday. He was widely known throughout the province, and was one of the pioneers of the Nanton district. He was born in Scotland, but when quite a young man he came to Canada and located at Wingham, Ontario, where he resided for over thirty years. About twenty years ago the lure of the west appealed to him, and for the past sixteen years he has been secretary-treasurer of the Town of Nanton, and to the people of that section, he was looked upon as one of the outstanding men of the community, and his death, although at the end of an extended illness, is mourned keenly by all the people with whom he came in contact.

Mr. Robertson was a real veteran in the ranks of the Independent Order of Oddfellows at Nanton, and also a member of the High River Masonic Lodge. He is survived by his widow, and four daughters, Mrs. O. C. Craig, of Cheadle, Mrs. B. Henderson, of Vero, Mrs. George Moore, of Calgary, and Mrs. Shier, of Calgary. The funeral services were conducted at Calgary on Wednesday, and the Masonic members having charge of the service at the cemetery, and acting as pall bearers.

Strathmore Town Council Meeting

A regular meeting of the Strathmore Town Council was held on Tuesday night. The following members were present: Councillors King, Shrimpton, Miner, Bailey and Moore present. In the absence of Mayor Bell and Deputy Mayor Schulte, Councillor King was, upon resolution, appointed chairman.

The minutes of the last regular meeting were read and confirmed. The matter of doing some road grading was brought up and Council for Bailey explained that that work would be carried on, weather permitting, as soon as he could secure some teams.

The secretary-treasurer reported that the repairing of the roof of the Town Hall had not been attended to, and Councillor Shrimpton was requested to make arrangements to have this small but necessary job completed.

Mr. A. Gray asked for a price to rent a small building on 6th Street, and it was decided to let him have same for \$2 per month.

Some time ago the Curling Club asked about securing a lease of the grounds where the rink is situated, but the lease has not yet been completed. This matter was referred to Deputy Mayor Schulte, who is also a member of the Curling Club.

A small account for fuel amounting to \$14.10, was the only one to come before the Council, and was referred to the Finance Committee for payment if found correct.

It was decided to furnish the secretary-treasurer with a stand for the adding machine at a cost of \$17.50. This meeting of the Council amounting a record for brevity, business being completed before nine o'clock.

Secretary Wears was able to report last night that he had been successful in collecting the minimum school tax from all delinquents but four, two of whom had promised to pay within a few days, and as far as the other two are concerned, anything may happen to them.

There was no report in connection with the collection of dog taxes, and no statistics available in regard to the numbers of wandering canines that have been destroyed, although the official in charge secured Councillor Bailey's trusty rifle several weeks ago, with the avowed intention of carrying on a systematic system of extermination.

HILLCREST MINE WRECKED

LETHBRIDGE.—An explosion occurred in the mine of the Hillcrest Collieries, Limited, at Hillcrest, at 11 o'clock Sunday night. Only two men were in the mine at the time, and both are missing. The same mine experienced an explosion 12 years ago, with a death list of 185. Mine rescue cars were rushed to the scene. The mine is badly wrecked. The Blairmore valley is full of smoke.

Municipal Hospitals Increasing in Alberta

EDMONTON.—The area of province being served by municipal hospitals under the Alberta system initiated some years ago, will be considerably increased before the end of the present year according to reports from the office of the government supervisor, A. K. Whiston.

Ratepayers of the Three Hills district will vote on a proposed municipal hospital project, Saturday, September 25th, this area consisting of the town of Three Hills and approximately six townships of rural territory. The district will join the extensive hospital district of Drumheller on the west.

Public Satisfied.—As an indication of public satisfaction with the municipal hospital scheme Mr. Whiston cites the case of the Drumheller district where the town and district of Rummey recently voted 50 to 1 in favor of joining the municipal project. On Saturday, Sept. 25, the ratepayers of a triangular district consisting of about two townships joined between the proposed Three Hills project and the Drumheller district will vote on the question of being incorporated in the Drumheller district.

The fine new municipal hospital at Innisfail will be ready for opening about October 15. A vote to determine whether a hospital district shall be established at Watrous and a vote will be taken October 2. Preliminary steps for the establishment of a district at Stettler were taken at a meeting last Friday. Officials of the hospital branch state.

MILLIONAIRE CANADIAN IN FLORIDA DESTITUTE.—TORONTO.—Harry Levitt, formerly

The Strathmore School Fair

The Annual School Fair was held on Wednesday, September 15th. The program had to be greatly curtailed on account of the weather. There was therefore no parade, physical training, singing contest, or races.

Considering the weather there was a large number of exhibits, the great majority of which were of a high standard. The crowd was a good deal larger than might have been expected under such circumstances.

It is hoped to publish a complete price list in next week's issue of the Standard.

We wish to thank the Rev. and Mrs. Smith and Mr. Gledhill for acting as secretaries to the judges. The judges from the Claresholm School of Agriculture were very late on account of the bad roads.

Thanks are also due to Mrs. S. Moore and the Revs. Rowe and Smith, who are judging the competitions.

We are so accustomed to getting help from the C.P.D. that we had almost forgotten to tender our thanks for the loan of the tent and lumber.

Had the weather been favorable Wednesday would have undoubtedly witnessed the biggest and best School Fair ever held in Strathmore.

of Hamilton, Ontario, whose holdings in Miami, Florida, real estate are estimated to have totalled \$5,000,000, to day wired relatives here that he and his wife are safe but destitute. The Levitt fortune was completely wiped out in the devastating storm of last Friday and Saturday, the telegram said.

What Did Vote Mean In Dominion Election

TORONTO.—The Financial Post says: Inarticulate Canada went to the polls and voted. There was, of course, one outstanding result, a result more decisive than anyone had really expected, and this result was the return of W. L. Mackenzie King and his followers to the seats of office. But it does not detract from the credit that is due to the Liberal party for their decisive victory to ask "What did Canada vote for?" Indeed, there were many thousands who cast their ballots on Tuesday, who did so with some degree of disappointment at not being able to express their opinions on any really serious issue or placing their "X" at any spot on the ballot. It was a campaign of mediocres, it is admitted, discussion of backlogs or irrelevant subjects.

What did the vote mean? Did the people of Canada administer a rebuke to Baron Byng? Did they endorse Mackenzie King as a statesman or popular leader? Did they show a lack of interest in the question of honesty in public life? Did they say they wanted the tariff reduced rather than established or raised? Did they even make a gesture of approval of ultimate free trade?

Valid questions there, for indeed the voters were not in a position to answer each and every question with one lot of crosses on the ballot paper. Yet there must have been one overriding, dominant, motivating influence at work to bring about a reversal so speedy and so pronounced. Various Liberal candidates gave credence to the prevailing goodwill current in the last notable budget of the late, and probably the new, min-

ister of finance, Hon. James A. Robb, and, truth to tell the election result does appear to be, as much as anything else, a personal triumph for Mr. Robb.

Other speakers ventured forth with pertinent promises, with meaningful and beclouding technicalities, with hot shot and slander, with all sorts of political tricks, some old, some new. Mr. Robb, almost alone, talked as reduction, the subject that made coldlike the most powerful president—at home—in a generation, and gave Mellon, the essence of financial authority—the popular goodwill usually accorded only to silver-tongued prophets of the "people." That is what all Canada wanted, assurance of relief from the pressing burden of taxation. Mr. Meighen and his friends declined to promise it. The Liberals' financial aid. Is this the secret of the result?

The badly handled Conservative campaign, critics in these columns no more than one occasion during the battle brought down Tory hopes. It was a Liberal campaign throughout, the Liberals getting up the issues, the Conservatives trying to knock them down. Meighen never took the offensive, as the prime minister of the country should have done, but let himself in the negative side—the opposition throughout. Continually he was talking back at the Liberals instead of leading the people to the forward look. It was not statesmanlike leadership, nor even shrewd politics.

New Government Well Under Way

OTTAWA, Sept. 21.—With one government packing up to leave and another in process of formation Ottawa is very active, politically, at present.

Robert Forke has arrived from Brandon, presumably for the purpose of discussing matters with Mr. King. He will, it is rumored, be invited to enter the new cabinet as minister of agriculture.

It is understood that the premier elect agreed to Mr. Forke's first point—the maintenance of the identity and autonomy of the Liberal-Progressive group. This group includes all the Manitoba Liberal-Progressives and John Miller and John Evans, Liberal-Progressives of Saskatchewan. The Progressive leader has wired his colleagues to meet him in Winnipeg, when he will lay before them the proposals of Mr. King. He made it clear to the Liberal leader that he would take no step without consultation with the elected Liberal-Progressives in the west. The Liberal leader also assured Mr. Forke of an acceptable legislative program next session.

Forke May Accept Liberal Portfolio

TORONTO, Ont. Sept. 22.—Robert Forke, Progressive leader, was yesterday offered a portfolio in the new Liberal cabinet by W. L. Mackenzie King. He may be minister of agriculture, minister of trade and commerce or whatever he desires. He returned west as free as he came, simply promising to consult his western colleagues before deciding.

Canada May Not Attend Imperial Conference.—LONDON, Sept. 21.—According to the Ottawa correspondent of the Daily Express, W. L. Mackenzie King, in an interview declared:

"I doubt whether Canada, in the unprecedented conference in which the governments of the empire find themselves, can be represented at the Imperial conference in London."

Mr. King is quoted as saying that if he were to form a new government, he and all his ministers must be re-elected. "We cannot travel to the Imperial conference while these by-elections are being held. In the first place where would the money come from? Secondly, I shall not be really prime minister until I am elected."

FONCK AND CURTIN ESCAPE FROM WRECK

WESTPORT.—Two men lost their lives this morning when the trans-Alberta airplane of Capt. Rene Fonck crashed on a 3,600-mile non-stop flight to Paris.

They were Charles Clavier, French radio operator, and Jacob Islamoff, Russian Mechanic. They were trapped in the closed cabin of the huge three-motored bi-plane.

Capt. Fonck, the French ace, in command of the Trans-Atlantic flight, and Lieut. Lawrence W. Curtin, United States navy aviator, leaped to safety before the plane burst into flames.

AUSTRALIANS WILL VISIT CALGARY

The Australian Cricket Club will visit Calgary on October 16, when it is hoped it may be possible to have a game.

A drive to the Prince of Wales ranch has been arranged, and a banquet will be given at which there will be addresses by Lieut. Governor Egbert, Hon. J. B. Bennett, Mayor Webster, and J. H. Woods.

In the evening a banquet will be held at the Palliser Hotel.

The cricketers of this district are invited to attend and recreations may be made through W. G. Kayser, secretary of the Strathmore Cricket Club.

Cabinet Possibilities Named By Rumer

Among the possibilities for appointment from Ontario are James Macdonald, North Bruce, and W. D. Butler, of North Waterloo. The name of E. H. E. Chervier, of Ottawa, is mentioned in connection with the post of solicitor-general.

J. C. Eliot will probably resume the portfolio of labor. Lucien Cannon is mentioned as postmaster-general in the new government. The other former ministers from Quebec, E. Lapointe, P. J. Gaudin and James Robb probably will go back to the departments which they administered before the resignation of the King government. R. Dandurand, Liberal leader in the senate, will again be a minister without portfolio.

The representation from the maritime is likely to include P. J. Venier, from New Brunswick; Col. Hamilton, of Halifax is mentioned as a possibility from Nova Scotia. It is suggested that P. L. Hatfield, member-elect for St. Lawrence-Vernon, may go to the senate and that Col. Hamilton may continue as a member of the new cabinet. J. N. Shuter may be the choice from Prince Edward Island.

ARCHBISHOP O'LEARY HONORED BY POPE PIUS

EDMONTON, Alta. Sept. 22.—Archbishop O'Leary, of Edmonton, is now assistant at the Pontifical throne and a duly accredited card of the Roman hierarchy. These new honors were conferred here through the medium of a special message from Pope Pius XI, who offered his blessings and good wishes on the occasion of the silver jubilee of Archbishop O'Leary.

At high mass Tuesday morning, sermons were preached in English by Archbishop Starnet, of Winnipeg, and in French by Archbishop Fradette, of Prince Albert. Assisting in the celebration were Archbishop Case, of Vancouver; Bishop Dick and Monsignor Hetherington, of Calgary, and Bishop Isidore, head of the Ukrainian church of Canada, of Winnipeg. Wednesday, as a part of the silver jubilee program, Archbishop O'Leary formally laid the corner stone of the new Catholic college being erected on the provincial university grounds in affiliation with the university.

NIGHTINGALE

Miss Mary Alexander, of Tokio, Japan, has been the guest of Miss Elsie Simanek. The young ladies are both students at a university of Alberta.

Fred Hilton wears a smile that would come off on account of the arrival of a son and heir.

The U.F.W.A. held a very interesting meeting at the home of Mrs. Grifflin on Saturday last. The roll call for the day was: Care and Storage of Vegetables for Winter; much useful information was passed along. The coming masquerade dance was discussed, and a good time is looked for by those who will attend. The need and possibility of a rest room in Strathmore was spoken of, but no definite information could be obtained. The next meeting will be held with Mrs. Taylor, October 8, at Valley Garden teachers.

Mr. and Mrs. R. A. Lambert and family have all been subject to a case of illness. It is hoped there will soon be a decided improvement.

Mrs. Blaine Stewart returned from Calgary Saturday evening with a bounding baby.

Mr. Jack Bruckley, of Riverview, Wash., is here looking after farming interests.

GOLF

What struck me most as a Lady Golf Pro. (writes Mauby Mary): That every girl ought to learn to play golf because it not only improves her figure, but gives her a chance of moving it off as well.

That a girl golfer has more chance of getting married than others, because she can get right into the center of the strongest bachelor parties with a little tact.

That the best way to do this is to wear very short skirts and a silk jumper, and to drive off the tee out toward the club clubhouse windows. That someone is sure to stroll out afterwards and follow up in the hope of helping to find a lost ball.

That many a strong friendship between girl golfers and bachelor golfers has been founded on lost balls (at one time I used to tip my caddies so they wouldn't find them). That some elderly ladies are very hard to teach when they take up golf, because their one idea in trying to learn the game is that they will be able to keep an eye on their husbands. That it isn't always wise to tell the truth about your handicap.

THE PONIES

NEW YORK.—It develops that Jim Gaffney, baseball manager and spectacular gambler, left Jockey McAttee a legacy in the form of a table in the amount of \$25,000. According to the gossip going the round, McAttee "rode" many winners and lots for Gaffney and that during his lifetime the speedster was a first class customer of the Whitney riders. Since the death of Gaffney, it is related that McAttee has turned over a complete new leaf and is now shooting on everything. Trainer James Rowe is authority for the statement that McAttee draws \$15,000 per year as first rider to the stable. It is further reported that McAttee has amassed a considerable fortune estimated between \$200,000 and \$250,000.

JOHN E. MADDEN

QUITS WAGERING

ON THE RACES
NEW YORK, N.Y.—John E. Madden, wizard turfman, has stopped wagering on the races, although qualified credit. The Kentucky as being the shrewdest operator in the country and declare that he has put over most successful career than any other turfman. Madden declares that it is impossible to beat the races.

"I am bringing out on the races," declared Madden to the writer in the paddock at Belmont Park. "I do not intend to ride the future to have as much as \$5 riding on any horse sent to the post and certainly would not think of betting on any thoroughbred owned by another turfman. All that talk about sentimental wagers is pure stuff. When one wagers he does so with the idea of winning something. I want to give my friend, Bert E. Collier, credit for a wise saying: that you can't beat a race, but you can't beat the races. I may have made some money betting, but that was long ago. Conditions have changed in recent years and it is a difficult thing to put over a good thing. The bookies are alert and deal out such short prices that one is forced to take much the worst of it."

Mr. Madden still loves to see a thoroughbred contest and gets just as much enjoyment out of a close finish as if he had a big wager on one of the contending thoroughbreds. "There is much joy in horse racing to me," said Mr. Madden, "and the betting end appeals to me. I don't need any money and I am not going to give away what I have by trying to beat the races. My advice to sportsmen is not to wager. There is nothing in it but a loss of time and loss of worry. Again I say you can beat a race, but you can't beat the races."

BASEBALL

The final swing around the circuit in the last lap of the pennant race of the National and American Leagues is underway. For the first time in years, it promises to have little effect on the standing of the leaders, unless some of the team on the lower rungs, up to the pace-setters, which is unlikely. It will be particularly strenuous in the American League, as a flock of snafus have been suffered from the East to the West, because of postponements. Ordinarily, these postponed games go by the board, but there is the possibility for second, third and fourth place this year that a demand was made they be transferred.

Will Frisch go to Pittsburgh?

Harney Dreyfus, owner of the Pittsburgh Pirates, has been saying little but doing a lot since his return from Europe. He and Fred Clarke, his right-hand man, have been in frequent conference and the result is likely to be some sensational disclosures before the coming of another season.

That they are going to clean house again is the best information. That Dreyfus is going to include Al Kieble, it is said, the appointment of a playing manager with Clark's assistance. It is also said that if Frankie Frisch does not come to Pittsburgh, he will be a day later as may be the Pittsburgh Pirates. Dreyfus is now a day later in doing business with John McGraw. Frisch would plug up the Pirates weakest spot, second base, and would be the manager's angle at the same time, or he probably would be amenable to Clark.

McKee's ability to control his own is the rock on which he is likely to founder. It was evident last year and was emphasized in the trouble that separated Carey, Adams and Bigbee from the team. Several other trouble-makers are listed for departure.

Dreyfus, on his return, immediately authorized the expenditure of considerable money to bolster the fading Pirates, but apparently he acted too late. Lines are out for more playing material and all but four or five men will be available for trading. Frisch talk has sprung up concerning the flag race since the disciplining of the three veterans. It is claimed in Pittsburgh that players of other teams resent their treatment and that they have lined up in favor of St. Louis, so that the Pittsburgh owners cannot share in the big money of a world's series. Some of the complaining fans have even gone as far as to say that this attitude has unconsciously affected members of the Pirates in their play against St. Louis and that Carey's good batting since joining the Robins has been due to getting balls "in the groove."

ALBERTA'S REPRESENTATION

IF the returns from the late Provincial election left anybody in doubt that the U.F.A. party is still the dominant factor in its politics in this province, the returns from the Federal election of Tuesday ought to clear away that uncertainty. Of 12 U.F.A. candidates nominated, 11 were elected. Outside ridings including the cities of Edmonton, Calgary, and Medicine Hat, no candidates other than U.F.A. nominees got a seat.

Alberta's delegation to the new parliament will consist of 11 U.F.A. members, 2 Liberals, 1 L.A. representative, and 1 Conservative. Any party which can capture 10 per cent. of the rural seats in the Province, and elect more than 50 per cent. of the candidates it puts in the field, is entitled to be recognized as the biggest political element in the community.

According to their numbers, it is therefore with the U.F.A. members that the responsibility will rest of representing the views of Alberta people at Ottawa, and of deciding how and for what Alberta's voting power in parliament shall be used. These members will go to Ottawa, forbidden to fraternize with any other party, but with permission to say any and all the support of measures they approve, and to participate fully to individual judgment when they shall cooperate with, how far, and for what purpose.

PARLIAMENT TO CONVENE ABOUT NOVEMBER 20

OTTAWA.—Interest in the formation of a King cabinet centers about the most of minister of customs, Liberal, as well as Conservatives, stand pledged to the thorough clean-up of the customs service and will likely select a man of outstanding ability as the responsible head. Hon. N. W. Howell, former member of the Union government, is being mentioned for the portfolio.

Pompey Premier Venet, of New Brunswick, will be the representative of that province in the new government, while the name of Paul Hatfield is mentioned as the choice from Nova Scotia.

Mr. Furke, from Manitoba, and James Malcolm and K. Ensher from Ontario.

The Late Mrs. Dewitt

On Wednesday afternoon, September 1st, Mrs. David Dewitt died at her home near Strathmore, age 71 years. She was born at Painesville, Pennsylvania, March 1, 1855, and was one of eight children. Two older sisters are still living.

On February 5th, 1880, she was married to Mr. G. D. Dewitt, and shortly afterwards they moved to Illinois, where they made their home for some thirty years.

In the Spring of 1911 they came to their present home near Strathmore. Mrs. Dewitt was a homemaker in every sense of the word; a kind and loving wife, and a friend to all who knew her.

Having no children of their own, she also gave her heart and her home, on girl and one boy, Ruthford Lee, who came with them to Canada in 1911 and later enlisted in the late war and made the supreme sacrifice.

Mrs. Dewitt was a member of The Royal Neighbor Lodge, and also joined the Methodist Church early in life, while yet in Pennsylvania, where she still retained membership at the time of her death.

Mrs. Dewitt was an active worker in the church in earlier life, but in later years was unable to continue on account of failing health, but continued in the study of God's word and in prayer in the home up to the time of her death.

A splendid neighbor, ever ready to help any in sorrow or need, and she will be missed by all who knew her.

LAUDING MILLER HUGGINS

"You are a hero when at the top; a mutt when you meet adversity." These might well be the sentiments of Miller Huggins as he sits at the top of the American League listening to the plaudits of the multitude as a philosopher on the queer quiver of fate. Huggins certainly is sitting on top of the baseball world—at least that portion overlooking the Hudson river. That he is referred to as a philosopher on the quiver quiver of fate. HARVESTING AT NIGHT

RUTHE, Mont.—About 40 combines and a number of threshing rigs are operated in the Denton section. A steady stream of wheat is being delivered to the elevators. Because harvest has been delayed by rainy weather, the combines are working late into the night. One of Denton's elevators, the Farmers' Cooperative Elevator company, is setting a new record in this section, in volume of receipts. One day, when the machines started, 247 loads were handled at the elevator, a total of 16,600 bushels and 10 cars were loaded that day. The next day receipts were greater by 1,000 bushels and 10 cars were dumped in the pit.

SMITH'S SPOKANE GIRL

The vivacious little Frenching never hesitates to speak. And the Irishman is often gaby too (You can always tell the latter by his line of snappy chatter). He is just the same in China or Peru. You can hear a heap of bunk from Mike Brown and Frank the Greek. When he opens up, the foot has gone. Sorry. In my experience I found that the solid Spokane girl imports a lot of meaning to an "Oh!"

CHURCH BULLETIN

STRATHMORE UNITED CHURCH
Sunday, September 26th, 1926
This will be Rally Sunday in all our meeting-places. Every man, woman, and child is urged to be out.
Strathmore will have special rally in the Sunday School at 11 o'clock, and there will be a rally service in the evening at 7.30.

At Namaka there will be a suitable programme of worship, in which the young people will have part, special music by the congregation, and by Mr. and Mrs. Wooster.
At Chedoke the Rally Day worship will find members of the church school taking part, and Mrs. Laycraft will be assisted by Miss Dawson with her violin.
All groups meet as usual this week.

DALEMEAD

Pupils of the Dalemead Rural High school, under the able leadership of their teacher, Miss Beattie, organized for basket ball last week, and very soon intend to organize their team for tennis also.

Ed. Gilbert is visiting with his people, Mr. and Mrs. Wm. Gilbert, while on vacation from Toronto.

The J.E.P.A. held a dance last Saturday evening. Mrs. Bradshaw was the piano.

A very special program has been arranged for September 26, Rally Day Sunday. Come out and attend the services.

LOCAL JOTTINGS

Howe Martin was much interested in the elections, and was rather in a quandary in regard to how you got a vote, so he began questioning a lady friend of his in regard to the plan to get a vote. He asked the lady if she had a vote, and getting an answer in the affirmative, followed that question by another one, asking the lady how old she was. However, the lady very diplomatically sidestepped the question by drawing Rowe's attention to another matter altogether.

Chief McFarland desires the members of A and B Companies to be prepared for a short notice call by their captains for a cleanup of fire equipment some day this week at about 5 p.m.

Wayne Mayor Shute was unable to attend the council meeting last night, he being confined to barracks with a severe cold.

Committee Harry Miner was almost on the board list of the Grand Jury, but by keeping in close consultation with Dr. Moore, he was able to combine until the meeting was closed.

Fred J. Dunn, who represented this district in the Herald Golf competition, at Calgary, has returned home, sorry that he was unable to capture some of the trophies, but nevertheless very enthusiastic over the splendid competition and reception and entertainment given to the competitors by the Calgary Herald. Fred qualified for the final in the Consolation round, and is quite sure next year he will be at least last in the semifinal of the main contest. He is quite sure that this competition will be a great impetus to more and better golf in all the small communities of the province.

The other day "Bill" Wilkinson was talking about his experience in the army, and what a reputation he had in the regiment, being considered among the highest scoring shots of the corps. Percy Pariah had been listening to this oration, and made some remarks that conveyed the idea that Wilkinson's ability as a marksman was rather under a cloud of suspicion. He invited Mr. Pariah to test his homestead and he would give a practical demonstration. The invitation was accepted, and with twenty rounds of ammunition the gay decorator marched to the front with the same confidence as Dempsey is exhibiting pending his battle with Tunney. He decided to attempt an oblique shot which very badly presented itself at about twenty yards distance. Bill decided to make short work of the "blinded" target—one shot, two shots, and so on up to sixteen, and with his hair on the goffer had been disturbed. Bill was sure that there was some thing wrong. Percy Pariah asked the privilege of testing the rifle, and to Bill's dismay, put that little goffer "hors de combat" with the first shot. They are carrying on their work together as usual, but the question of marksmanship has been defeated.

Ray Melvin says that he will spring a real surprise on the bunch at the Tennis Club's masquerade dance on October 29th. He claims that Rexall Red's outfit is old stuff in comparison with his perfection costume, the nature of which he will not even impart to the Lumlise, who is about as inquisitive about it as a maiden aunt who has passed the fifty mark.

Any way, you will see both he and Spencer Hughes most charmingly costumed for the occasion. Don't forget the date.

The Dempsey-Tunney bout will be broadcasted on Thursday night, beginning about 7.30 o'clock. All the fight fans who have radios will have a great evening's entertainment.

Recall that last night, complete and satisfactory arrangements to be among those present at the Tennis Club's Big Masquerade Dance on Oct. 29. He says he got into all kind of trouble by missing the Gun Club meetings to play tennis, but is going to be very much in the limelight that night. He claims that his costume is a perfect dream.

Mr. Simmonds and wife arrived from Enchant on Friday last, and are the guest of the brother-in-law, Fred J. Dunn. Mr. Simmonds expects to take his home in Canada.

Mr. and Mrs. C. H. Payrvin, of Los Angeles, California, spent several days at the home of Mr. and Mrs. E. J. Payrvin, returning home by way of Lund and Lake Louise. Mrs. Payrvin is a sister of Mrs. Zerkle.

A. Allen, of the United Electrical Engineering Co., is making his "personal" calls upon the clients of the company, each of whom are very interested in having him give them meters a most careful scrutiny. In the meantime, R. A. Brown, the general manager, resides in his many unpolluted chairs at Calgary, awaiting results before taking a chance of placing an order for the Thompson's turkey and cranberry sauce.

The weather man has again gone on a rampage. Sunday was fine and prospects exceedingly bright for a big week in completing the harvesting of a good quantity with the threshing. However, Monday turned much colder, followed by snow falls, forcing the harvesters back again into the country. It was a great disappointment to many of the newly arrived harvest hands, who find themselves financially handicapped owing to the few days of unemployment, which they have been able to secure. The effect upon the grade of grain is found to be serious, but just how much is unknown. Presently Alberta has a reputation for quick recovery, which it will have ample opportunity to demonstrate this season.

If husbands in Strathmore arrive home on Friday or Saturday and find that supper is being served a little later than usual, or that the supply is not quite up to the regular bill of fare, they can account for it by the fact that their better halves have been spending their time and money at the Strathmore Trading Company, where Mrs. Mayor, representing the Motley Van Camp Co., is putting on a special display of Fall Coats and Dresses.

Dr. E. G. Simmonds was in town on Tuesday and Wednesday, enjoying a pleasant hour with a number of his patients.

D. O. Mackenzie, of Blairmore, won the Calgary Herald Golf competition, defeating E. McKenna-Grieve, of Inverness, in the final, two and one. Later these two players squared off.

Rev. Mr. Shults conducted special memorial in memory of the late Mr. W. H. McMichael and Mrs. McMichael, who died on Sunday, September 19th, at the age of 80 years. A large number of friends and acquaintances were present.

Fred Anderson, accounts for the present inclement weather as a high sequence following the victory of Mackenzie-King, while "Bill" points out with a great deal of gusto that Mackenzie-King at present is only leader of his majesty's loyal opposition, and that until he is elected as premier, that the people may expect bad weather.

Kenny McCully joined Bill Thorny's staff last week and worked for a few days. Last Thursday evening Co. McCully, in making his rounds, thought that it was about time that he should give an order for a little attention, so he called at the factory and questioned the new comers in regard to his recent movements. He did not get much information, but when he returned to his headquarters, he looked back on his reports for some months and located one that fitted the description of Mr. McCully very completely. It was now past midnight as he led his unit stand, and was up bright and early on Friday morning, but Mr. McCully had vanished through the night. The Constable learned that he had headed for Calgary, so he notified Calgary officers, and they sent an officer east while Constable Tate looked for Lancelotti, where the officers met and also located their man. Mr. McCully, it was learned, had escaped from Ponoka last April, and has since made the trip to Ontario and return. Upon examination it was discovered that Mr. McCully was almost ready for discharge from the institution at the time he took French leave. He was again given his liberty.

ROSEBUD

The Ladies Aid met with Mrs. A. J. Gross Thursday afternoon. Plans for the annual bazaar to be held in the church Saturday, December 4th, were talked over. One of the interesting articles will be an autograph quilt. Everybody near and far are asked to send in their name to be outlined on the quilt, and the finished quilt will be auctioned at the bazaar. Any donation of fancy work solicited.

Mr. and Mrs. Geo. Gow have as their guests, Mr. and Mrs. Crisp, of Saskatchewan. Mrs. Crisp is Mrs. Gow's sister.

Coyotes are getting busy—many chickens and turkeys have been taken by them. Coyote hunters should be able to get many fine pelts this Fall.

Howard Hymas returned from Calgary, where he went for medical aid.

Mr. and Mrs. Hank Buzzard are to leave us, having bought a farm in the Old district. Mr. Oscar Ryan will farm the land. Mr. Buzzard is now on.

Snow and ice one half inch thick has been the unusual state of weather here the past week. Never before was such cold weather known so early in the season. Trees and gardens are badly frozen, and farmers quite depressed over the outlook. Wheat in stocks is sprouted. But if the weather turns nice and stays so, things may turn out better than the present state looks.

R. W. Palmer, representing the House of Hobbler, spent last Saturday exhibiting samples of the latest models in men's clothing at T. W. E. Wright's store, and on Monday morning T. E. was all smiles, when he

In spite of bad weather and heavy
floods on the 16th, many sportsmen
were keen enough to take a few
trips, and a most cases returned
with splendid bags of game. Al-
though they do not appear to be quite
so plentiful this season as in the past
this may be accounted for by the
large number of dogs and hounds
which roam the country especially
during the hunting season, when it is
feared that the disturbed birds desert
their nests.

The Owl Club have been more than
active during the nights of the past
week.

On Sunday evening a most enjoy-
able evening was spent by the "Davy
Ducks" at the home of Mr. Harold
Anderson, after dancing, a dainty
supper was served.

On Monday Mrs. Ryan gave a fine
well supper to Frank, who was leav-
ing on Wednesday for Regina to at-
tend the Catholic Boys' College.
Dancing and games were much en-
joyed, as also was the splendid sup-
per served by Mrs. Ryan. During the
evening the Rev. Fr. Diney presented
Frank with an Eversharp pencil and
pen in behalf of the Owl Club.

On Tuesday evening Mrs. Pomeroy
gave a chicken supper to celebrate

COAL MINES INCREASED PRODUCTION IN JUNE

OTTAWA, Ont.—The output of coal
from Canadian mines for the month
of June was 47 per cent. greater than
for the average of that month of the
five previous years, according to the
Bureau of Statistics. The figures were
1,287,040 tons in June, as against
1,128,728 tons in May and an average
of 944,942 tons for the month of June
for the five preceding years.

WILL SHIP CANADIAN CATTLE TO DUNDEE

MONTREAL, Que.—Dundee will be
the port of disembarkation for the
shipment of cattle leaving here in
the near future, this being practically
a new departure in the Canadian
export cattle trade, though an experi-
mental cargo was taken to that port
about two years ago. This second
shipment has been made by farmers in
Alberta, Manitoba and P.E.I., and
farther, Scotland, where the animals
will be placed on the land to graze
and fatten for the local markets.

CANADA'S WEALTH THIRD AMONG LISTED NATIONS

MONTREAL, Que.—An interesting
estimate of Canada's per capita wealth
has been made by the League of
Nations, with comparative figures of
22 years ago. In 1925 the per capita
wealth in this country amounted to
\$2,406, as contrasted with \$1,100 per
capita in 1903. Out of the 35 na-
tions listed, Canada ranks third, the United
States showing \$2,815 and Great Brit-
ain \$2,459 per capita, respectively.

EXPORTS OF CANADIAN FLOUR IS INCREASING

MONTREAL, Que.—Exports of
wheat flour from Canada during the
eleven months ended June, 1926,
amounted to \$9,123,315 lbs., valued at
\$66,864,481, as compared with \$25,252,
lbs., valued at \$66,812,356 in the same
period of 1925. The United Kingdom
continued as the largest importer of
Canadian flour, having taken nearly
\$3,000,000 lbs. in the period under re-
view, as compared with about 2,500,000
last year.

last Thursday evening, when the
guests enjoyed an excellent danc-
ing.

The ball dance which was to have
taken place last Wednesday evening in
Chris Sorenson's new barn, was
postponed owing to the wet weather
and bad roads. Those who were brave
enough to venture forth in the weather
spent a very pleasant evening at the
Sorenson home dancing and playing
games.

Miss Martha Peden, Miss Nettie
Fuhr and Mr. J. F. Gorrill motored to
Husar on Thursday to assist with
the judging of the school fair exhibits
there. In return Mr. Gaetz and Miss
Kastrup, of Husar, came to Stand-
ard's School Fair on Friday, and help-
ed with the judging here. Other
judges here were Mr. Boyce, Inspector
of Schools, Mr. Benn, Mr. Cyril Kelly,
Miss McIntyre, Chairman, Agricul-
tural College, Mrs. Sillp, Mrs. E. L.
Wirt, Mrs. N. W. Thompson, Mrs. J.
Dickson, Chancellor, Mrs. T. Turn-
quist and Mrs. A. L. Williams.

Mr. Carl Sorenson is remodelling
his house in town, and is also building
an addition to it.

STANDARD SCHOOL FAIR A GREAT SUCCESS

In spite of the inclement weather,
the Standard School Fair which was
held in the S & S hall on Friday,
September 17th, was unquestionably
a great success. "Bigger and Better"
seems to be the motto for this annual
event and both the number and quality
of the exhibits were far superior
to other years. The greatest enthus-
iasm prevailed among the young ex-
hibitors, and the quality of the work
displayed reflects great credit upon
the teachers of the two schools which
competed in the fair.

Mr. A. L. Williams, as secretary,
ably assisted by a willing band of
workers, kept all arrangements work-
ing very smoothly, the only difficulty
experienced being in finding sufficient
space to display the enormous quan-
tity of work to the best advantage.
In addition to the children's school
exhibits, there was also a splendid
display of fireworks, which had been
completed during the school year,
under the capable direction of Mr.
John Knudsen.

While the judging was going on, a
programme of sports for the child-
ren was carried out under the direc-
tion of Mr. Laith.

During the afternoon the hall was
packed to capacity, expressions of ad-
miration being heard on every side,
at the excellence of the work dis-
played. Competitions in singing and
physical drill brought the day's pro-
ceedings to an end. The first prize
for singing was won by the four
Ballet children, Long Beach school
being second and the junior room
of the Standard school third. The physical
drill competition was won by Long
Beach school, with the Junior room
of the Standard school second.

Afternoon tea was served by the
ladies of the Standard Women's In-
stitute.

FRANK MILLER,
Proprietor

A good story has just leaked out in connection with Frank Miller, the last time he was in Calgary, and Tony Grogan vouches for its truth, which everyone who knows Grogan's reputation for veracity, will accept at once.

Frank was preoccupied about some business deal and missed the traffic cop's signal, when the following dialogue took place:

"Hey, there, pull over to the curb!"

"Yes, sir."

"What's that, you say, anyhow?"

"Nothing, sir."

"Don't you know you're about to drive in a car? I know you, whitey, and you are roasting along like you was too fast for coffee or sugar!"

"You're one of those wise guys, ain't you?"

"No, sir."

"What'd you think I am, a sap or a simple?"

"No, sir."

"Got the idea that stop signals don't mean nothing, did you?"

"No, sir."

"You're a traffic cop, are you?"

"No, sir."

HEARD ON THE STREET

"The lady of the house answered the bell, as I found a dry look in her eye at the door. 'Why, do you go to work,' she began. 'Without illness and strikes, we should have no business.' 'Madame,' said the man, 'I am at work. I am a travelling advertisement for a new soap firm. I'm the 'before using' man, and my colleague represents the 'after using' end of the combination. Take a good look at me, and then see my friend who will call in a few minutes.'"

A monthly educational journal gives a selection of the amusing schoolboy mistakes which it received in a prize competition. Among the "howlers" are the following:

A relative pronoun is a family pronoun, such as mother, brother, aunt, degree of comparison of had—had very sick, dead. ? The masculine of dam is dash. The climate of the island is wet but embracing.

"The Complete Angler" is another name for Buelch, because he wrote all about angles. Things which are halves of themselves are equal to each other.

Water may be made hard by freezing, and the hardness removed by boiling it. A mosquito is the child of black and white parents.

Blubbity is a colony gone bloodshot. The first book in the Bible is the Gospels.

Genius is an infinite capacity for picking brains. Charles II told the people they could get drunk or gamble or do what they liked. This was called the Restoration.

Last week the Strathmore miradors were away early on the annual trek, looking for ducks in the marshes and sloughs.

Jim Martin was one of the most successful and returned with a smile that would come off.

When questioned "where he had hunted," he replied "same old spot," which appears to be very satisfactory; but at the same time he is not vol concerning much information.

Another party gathered at the Boy's, and one of the guests was Frank Miller, who had been doing a heap of boasting about his qualifications as a marksman.

He arrived home on Wednesday afternoon, bringing with him about thirty fine looking birds.

How he got them is bothering his neighbours, because the shingles report that in over twenty shots that Miller made a never even disturbed a tail feather.

As soon as a fiver was discovered he would boldly stand up, shut both eyes, and bang away, but not a single bird was known to be injured by him, and yet when he reached home he had the full complement that the law allows.

He had a number of them prepared and invited several guests to the feast.

He acted the sporting host, with all the self satisfaction that comes to a real successful duck hunter, and would have gotten away with the story had not someone spilled the beans.

Another "bird" who was telling some big ones was "Recall Red," when he entertained at a duck dinner party on Thursday night. "Recall" told them so large that he became quite comical and was in a high state of nervousness when one of the ladies very nothingly suggested to him "Recall" to be his own sweet self, and he wag.

Do you stock all colours of paint called "Mr. Williams (alias White Bear) of Mat Barber?"

"Yes, sir, the very best," replied the hardware merchant, endeavoring to beam his most winning smile upon the prospective customer.

"All right old top, come across with two cans of Turbine. Perry Pariah has a contract to paint a Scotchman."

Billy: "How did Argie get that pearl from a little oyster?"

Allice: "No—from a little fish."

Mr. Playter: "My husband declares he married twice and brains."

Her Dearest Friend: "Dear, you should investigate; he may be a big snail."

"It's no good minding matters," said the doctor, "you are very ill. It is anybody you would like to see."

"Yes," replied the patient faintly.

"Who is it?"

"Another doctor, please."

Recently the widow of a farmer, trying to keep the farm and end some difficulty with her heirs and wrote the following letter to the De-

partment of Agriculture: "Something is wrong with my chickens. Every morning when I come out I find two or three lying on the ground cold and stiff with their feet in the air. Can you tell me what is the matter?" After a little while she received the following letter from the Department: "Dear Madam: Your chickens are dead."

Accountant Lundie: "What are these little 'x's' you made under the endorsement of your husband's check?" Mrs. Newlwyed: "Why, those stand for kisses. I want him to know how I appreciate the money."

Judge: "Do you mean to say you stood by and let your wife be brutally assaulted by the prisoner without rendering any help?"

Witness: "Well, I didn't think he needed any help."

Patient (nervously): "And will the operation be dangerous, Doctor?" Doctor: "Nonsense! You couldn't buy a dangerous operation for fifty dollars."

"Prisoner," said the Edmonton magistrate, "you have already been sentenced eleven times for vagrancy, assault, embezzlement, theft, and other crimes."

"Would you mind not talking so loud," said the prisoner. "My intended father is in court, and you might think he'd hear you."

"Doctor," said the Negroes to the Calgary physician, "A's come to see if you can give order Batus one of them mustard plasters ag'in today."

"I think perhaps he had better have one now," answered the doctor.

"Well, he says to ask him he have a slice of ham wid it, 'coast of its being a mighty powful prescription to take."

Dora: "So you made up your quarrel with Tony?"

Doris: "Yes, but only temporarily. We're getting married shortly."

.....

Principal Brown: "Give me a definition for a vacuum."

Student: "I have it in my head but can't express it."

.....

Teacher: "Now, James, what is the third letter in the alphabet?"

James: "Dum." Teacher: "Yes, you do. What is it that you do with your eyes?"

James: "Mother says I squirt."

A fellow bought a new shirt at a bargain sale, and on the slip pinned to the inside found the name and address of a girl, with the words "Please write, and send photograph."

"Ahl he breathed, 'here is romance.'"

As fortwith he wrote the girl, and sent her a picture of himself. In due course of time an answer came, and with heart-flutter he opened it.

"It was only a note."

"I was just curious to see," it read, "what kind of a looking snail you had, wear such a cheap shirt."

.....

"That was a great speech you made to the jury?"

"Thanks," said the lawyer.

"Why, even your client says. Your description of his poor old mother was a single man."

"It took you a long time to pull that fellow's tooth out," said the dentist's assistant.

"Yes, he married the girl I loved."

.....

We see where a junk man in the past found \$1,500 in a pair of old pants he purchased. It's needless to say the original owner of the pants was a single man.

After Jessie had been at the boarding school a few weeks she began signing her letters home "Jessie."

Brother Tom thought he would give her a little dig about it, so he wrote her: "Dear Jessie: Duties and mummies have gone to visit Aunt Lizzy. Uncle Samica is talking of buying a new machine, but he doesn't know whether to get a Ford or a Chevy. The old cow has had a calf. I was going to call it Nellie, but I changed it to Jimmie; it was a bull. Your affectionate brother, Tom."

"Can't," replied the coy girl.

"Oh, why not?"

"Because I'll give you just one little kiss just once."

Allice: "I'll say I won't. You asked for a match just now and ended by filling your pockets full of Dad's best cigars."

THE

UNCERTAINTY

That nothing is so uncertain as a horse race or an election was demonstrated in the recent Dominion election.

The active workers in the Conservative interests were positive that nothing but victory was in sight for their party. The Conservative workers in the west did not expect to make extensive gains in the west, but they did anticipate holding what they had and expected big gains in Quebec, Manitoba and also in Ontario.

The managers at headquarters arranged too lengthy a campaign, with the result that the custom's scandal, which was very effective during the first few weeks of the fight, became ineffective as time passed.

Canadians as a whole, regret Mr. Meighen's personal defeat, even his opponents admit him for his frankness in preaching the doctrine of protection.

The Liberal campaign was exceedingly well managed, and in every constituency three-cornered contests were avoided wherever it could be amply arranged with either the Progressive or Labor representatives. This working arrangement was very effective in Manitoba and Ontario.

The Liberal budget appealed to many voters, who were not particularly attached to any party.

Mr. Meighen also suffered at the hands of some of his supporters like Nicholson, of East Alberta and Doucet, of Kent, New Brunswick, who made rash statements which were not supported by facts, and required endless explaining. These two candidates each went down to defeat. The U.P.A. conducted their campaign most effectively, and captured 11 of the 16 Alberta seats, making a gain of 2 without any loss.

REAL DANGER

EXISTS AT

RAILWAY STATION

"Down at the Canadian Pacific Railway station numbers of very small children congregate from time to time and play about on the platform and around the station premises. If this practice is allowed to continue it is only a matter of time until the services of C. W. Chase, the undertaker, will be a necessity, as some child is sure to meet with a fatal accident.

Numerous trains are passing through Strathmore daily, several of which do not stop, thus increasing the danger by crossing through the yards at high speed.

Agent Perry and the other railway employees cannot perform their regular duties and at the same time keep a watchful eye over a band of children who are not old enough to be far away from the nursery.

It is the duty of the parents to insist upon their children remaining away from the railway yards, unless accompanied by themselves or other responsible guardians.

It would be regrettable should such an accident occur, and it may easily be avoided by crossing through the yards at high speed.

THE

FIREPLACE

Those who are supplied with fireplaces in their homes feel no resentment as the chilly evenings of the early fall arrive, with their promise of colder evenings and the winter not far away. The chill of fall can be welcomed because it provides good reason for a fire in the fireplace with the joy and good cheer possible as the fire crackles and develops.

The family gathers about the fire, as the fire is strong and there is promise of a happy hour. It is a prop-

er place to visit, or read, or smoke, to relax and dream. The glow of the fireplace is cheerful, companionable and inviting. One may watch the curling smoke, the jets of flame, the ruddy glow and find ever a new picture always interesting.

Fireplaces are domestic, belong in the home where a family is found. The hour of peace, kindly contemplation and retrospection comes as the evening wears away and the fire burns low, the hour with its soothing and sweetening effect on life. These hours come only in the home. They are for the generous, the kindly, the helpful to know and enjoy.

MIGHT BE

A SCANDAL

Mr. Meighen is having his son educated at a French-Canadian college. That this is all right but what a scandal there would be if Mr. Mackenzie King were to send a son of his to Laval, says the Golderich Signal. Charlie Clarke, of the High River Times, says: "We rise to remark that surely would be in view of the fact that Mackenzie King is a bachelor." Charlie is some authority upon family affairs and British Columbia Tories.

YOUR TOWN

AND YOU

Your town boasts you. Why not do so as well by the town as it does by you? No citizen is so powerful, none so humble, but what the town is an aid to him in some way or other.

The food that he eats, the clothes he wears, the recreation and amusement that he enjoys, all originate in the town, because the money with which they are procured is made there.

When a fellow boasts his own town he does not stop there. He is performing an act that improves his own condition, for every good word and every good deed has its elevating influence.

A few people are always home town boosters. They accomplish much in the way of community betterment, and this improves the condition of not only themselves, but also of those who do no boosting at all.

If every citizen would constitute himself a home booster the result collectively would be many times as great, and opportunities for self improvement would be more numerous. Think it over in your own moments. Then get into the boost wagon and hit the pace.
